What we offer to you...

To present your work...

You can submit work on any subject related to equine science but in particular nutrition and training until March 5, 2007 (announcement of rejection or acceptance by March 30, 2007 or earlier). Please comply with the following guidelines:

- Concurrent registration for the conference is required when submitting your work (fee will be cashed only after communicating the result of the evaluation and agreement with you).
- Acceptance is based on the completeness and practical relevance of the work.
- Accepted work may be published in the book Applied Equine Nutrition and Science - ENUCO 2007 (available during the conference).
- Each abstract will be reviewed by three independent referees. Prior to the review the names of the authors and their affiliations will be removed to enable an unbiased review.
- Work will be accepted for poster presentation and eventually for oral presentation based on score and availability of time slots in the programme.
- Abstract format:
 - Up to 1,500 words. Font Times, 12 point, 1.5 line spacing should be used throughout.
 - The first line should list the authors; the second line their affiliations. In the third line it should state whether the work is intended for poster or oral presentation. In the fourth line it should state whether the work may be published in the book of the conference.
 - An abstract should have the following sections: Take home message (which describes the essence of the work), introduction, material and methods, results, discussion and conclusions.
 - Send by e-mail to: arnolindner@t-online.de
